## Cricket Clubs youth categories

- Cricket clubs in the West Indies, England, India and Australia have a very close relationship with their communities.
- Professional cricket clubs have youth categories and semi-professional players as “second teams” and compete in player development leagues, which feed into the parent team.

# Project

our proposals for the growth of cricket

Our project is made up of two parts:

- Coaching academy for coaches.
- Cricket camps for boys and girls aged 8 to 18 years

## ROLAND BUTCHER CRICKET ACADEMY

# Project

coaching academy

The profession of sports coach, like that of teacher or education, requires frequent, continuing education to keep up with the best and newest methods, tools, and systems. These ever-improving methods enable one to do the best possible job and teach others, in our case, to understand the game of cricket.

For that reason, we have designed a coaching academy to pass on those latest methods to those coaching youth cricket teams.

These coaching academy opportunities take place over the course of three days, each having a four hour session divided into one hour lectures taught by coaches from some of the best teams across the world.

The specific timing of each session is flexible, as we will adjust to local times that work best for all attendees. At the end of the three day course, a certificate will be awarded to those who complete it.

## Project cricket camps

Our **working methodology** has three differentiated areas:

- ❖ Coaching: technique and tactics.
- ❖ Training: working with bat and ball.
- ❖ Strategy: increase knowledge of the game and its strategy

The weekly program of activities (5 days) is as follows:

- ❖ Breakfast or afternoon snack with talk about sports nutrition and healthy eating habits.
- ❖ 3 Hours of cricket coaching and training every day (15 Hours)
- ❖ Talks with coaches about tactics, teamwork and values.

All participants receive gear for training: two t-shirts, shorts, and a baseball hat.
